SECUMAX 145 MDP
NO. 145007

Original size

2 in 1 blade head

The blade head provides two functions: cutting and piercing. Use the knife's noses to the left and right of the blade to effortlessly pierce materials (e.g. card and film), and the blade head's corners for packing tape.

Concealed blade

With a 4 mm cutting access, the blade is highly concealed. Out of reach for fingers but accessible to the materials to be cut. And contents under the cutting surface will also be kept safe from contact with the cutting edge.

Stainless steel blade

Stainless steel blades are standard in the SECUMAX 145 MDP – optimal for regular use under demanding conditions and for cleaning with water.

Metal detectable

You are on the safe side when using the SECUMAX 145 MDP in areas requiring caution. The detectors are effective in the event that the disposable tool – or parts of it – unintentionally enter the production process.

Flat and robust design

It is not just the handle that has an extremely flat design – the cutting channel too measures just 1.5 mm. Less effort is required for cutting and the tool also retains its strength – thanks to a 0.5 mm blade and high-quality plastic.

Compact design. Powerful performance.

Metal detectable.

The SECUMAX 145 is our clever, compact safety knife for routine cutting tasks – also available in an MDP version. The metal-detectable plastic handle and 0.5 mm strong blade gives a robustness to the lightweight 14 g knife. Its concealed cutting edge easily copes with single-layered cardboard, film and packing tape and keeps your fingers safe. And because the SECUMAX 145 MDP is always traceable, your company is kept safe too.

PRODUCT FEATURES

Technical features

	Maximum safety		Metal detectable
	Disposable knife		Abrasion resistant
	Ergonomic		2-times usable blade
	Cutting depth		For right and left hander
	Lanyard hole		Stainless

Main cutting materials

	Cardboard: 1-ply		Wrapping, stretch, and shrink foil
	Tape		Bagged goods
	Layers of foil or paper		Yarn, cord

Installed blade

» The stainless steel blade is moulded into the body of the knife and cannot be changed. Blade thickness 0,50 mm.

Application

Safety technology

Concealed blade – a maximum degree of safety

The SECUMAX 145 MDP blade is not an open one, but is hidden from people and goods. This provides you with a maximum degree of safety from cut injuries and from damage to goods.
