SECUMAX 350

NO. 350001

Original size

2-in-1 blade head

Double function, doubly useful: with two cutting edges and two tape splitters, this multifunctional blade head exceeds itself. Before you need to change the blade, flip it over once to use the second side.

Concealed blade

The SECUMAX 350 is a smart cutter. It's fitted with an double-sided overmoulded blade, the noses have the perfect length to protect. The two cutting edges are wide enough to safely and effortlessly cut 2-ply cardboard.

Spare blade in storage

Blade change is easily and safely executed. Look for the arrow and follow its lead. Open the blue inner side of the cutter to reveal the spare blade. The mounted blade will simultaneously unlatch.

Light and easy

A cutting heavyweight, but with only 37 grams, this cutter is rather lightweight... Meaning that even high cutting frequencies won't weigh you down. There's no need to stress when handling the blade either: a plastic jacket protects your fingers.

Ergonomically shaped

Right handed or left handed? It's really all the same. The SECUMAX 350 fits perfectly in any hand. Gently arching outer edges, coupled with suitably located soft-grip and light ribbing make for an ergonomic experience.

More fun while you work? Try it out.

The new SECUMAX 350 is a combination of versatility, comfort and safety. A maximum degree of safety. Featuring an innovative blade change, this cutter is multi-talented. It can be used to cut all standard materials, from film to plastic-strap-ping, from paper to 2-ply cardboard. It splits adhesive tape easily too. And it is so comfortable to hold that you won't want to put it down.

PRODUCT FEATURES

Application

Safety technology

Concealed blade – a maximum degree of safety

The SECUMAX 350 blade is not an open one, but is hidden from people and goods. This provides you with a maximum degree of safety from cut injuries and from damage to goods.
